

There is 8x L brackets, (4 each side). Bottom corners x2.

Top corner behind Marquee section.

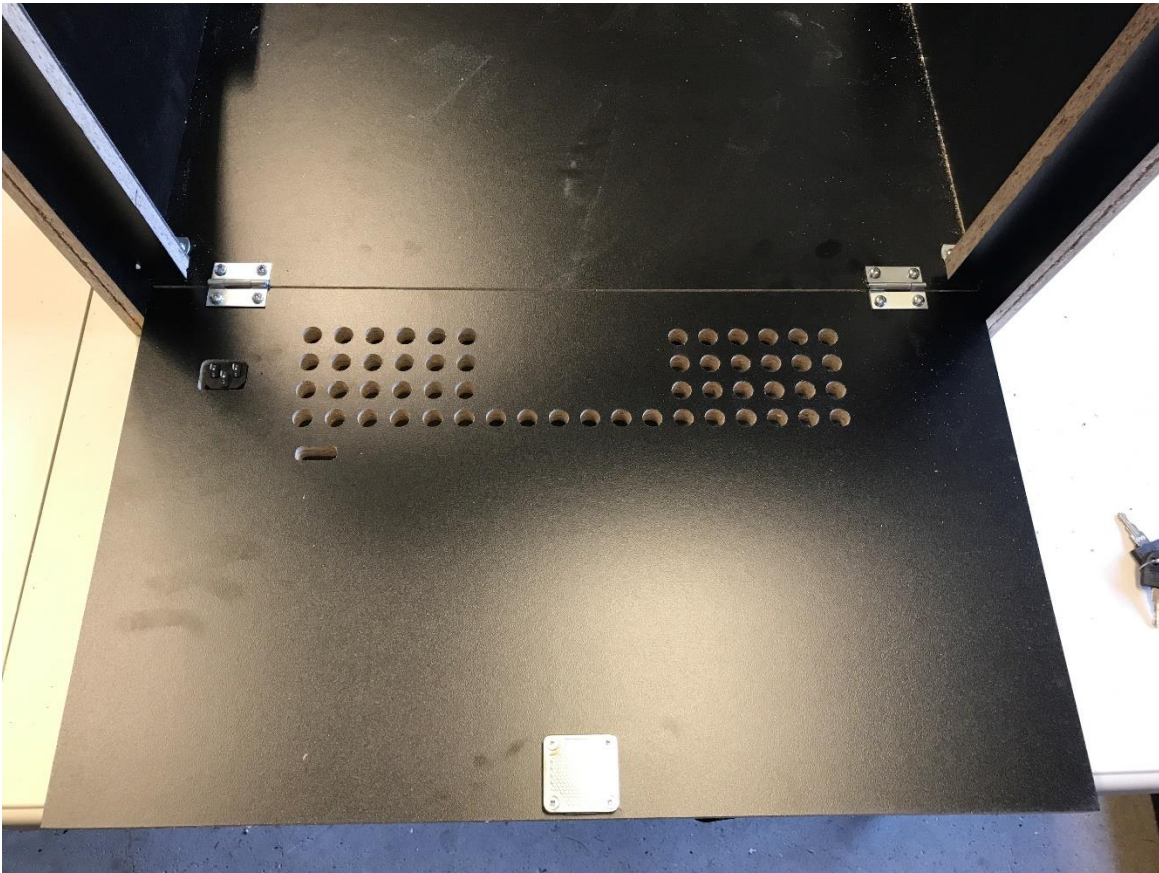

Final L bracket under the control panel mounting panel.

Install the LCD rear mounting panel.

Attach rear door. Make sure there is a small gap between door and cabinet base.

Installing LCD Monitor. Attach the 3 1/2" corner brackets to the LCD panel. Then use the M4 Versa screws to attach monitor.

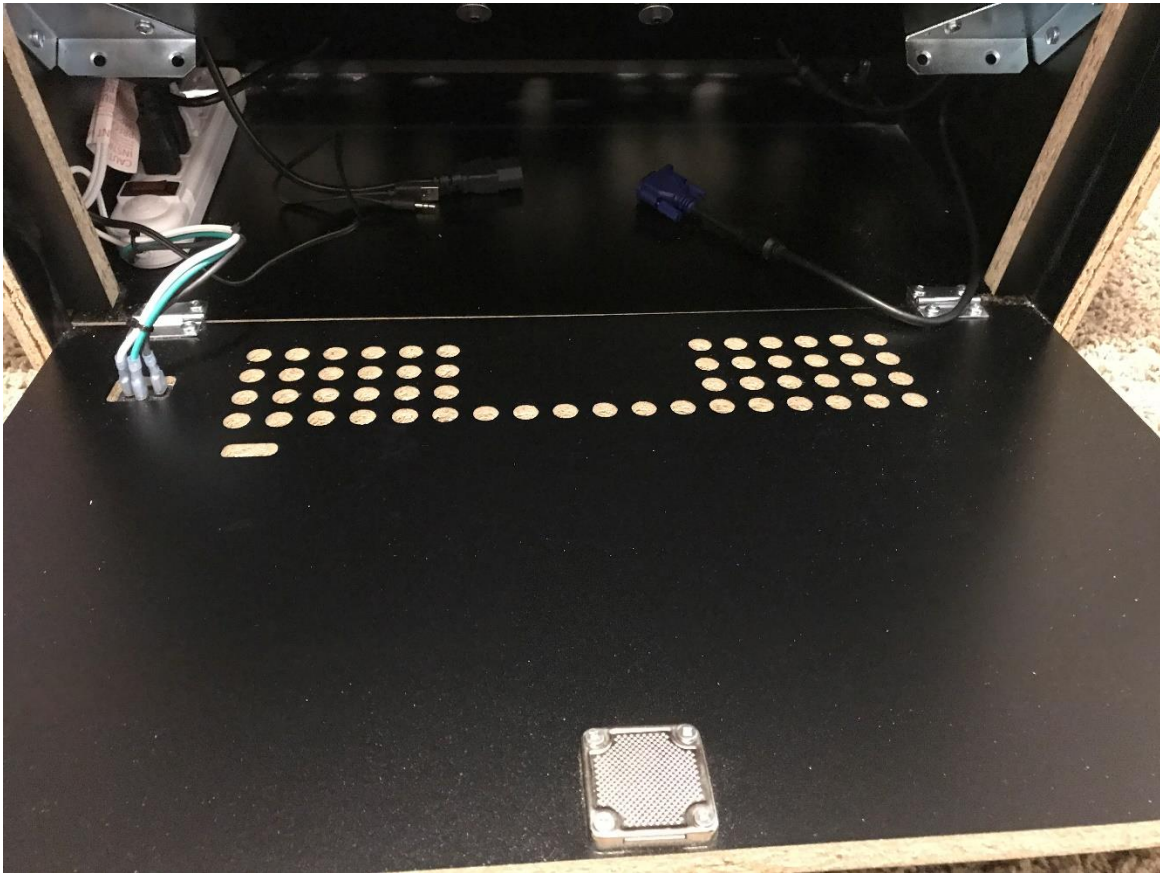

4x Versa M4 screws.

Below has the LCD mounted also power bar wired to switch and plug.

Below is an assembled cabinet with black L channel to hold Maquee plexiglass in place. I have installed a 22" LCD. Leave room for bezel and LCD plexiglass between speaker panel and LCD.
